Deployment: The website is deployed on GoDaddy, and you can view it [here. www.rrinfrapro.com](https://www.rrinfrapro.com)
R.R. Infrastructures is also a leading manufacture and service provider of hydrogen gas generator plants, sewage treatment plants, industrial pressure vessel and many more. We are also manufacturer of stainless steel hot water storage tanks, pressure vessels, steel material handling equipments, trollies, steel water sinks

- **SELF KYC ADMIN PORTAL**

Tech Stack Utilized:-React js, material ui, Spring boot

I have developed a dynamic website project that incorporates several key functionalities. Users have the ability to upload Aadhar cards, residential documents, selfies, and signatures.

Additionally, the website calculates latitude and longitude coordinates based on the provided address and computes the distance between two locations.

Furthermore, the project allows administrators to upload Excel files containing user information, which is then processed and sent via email. This project represents a combination of various complex features, including file uploads, geolocation calculations, data processing, and automated email notifications.

- **GST TRACKING ADMIN PORTAL**

GST Tracking Admin Portal where users can track GST-related transactions, including government-issued GST and total contributions. The portal primarily utilizes HTML, CSS, JavaScript, jQuery, JSP, and Spring Boot.

- **JPR TECHNOLOGIES LLP**

Tech Stack: Utilized React and Tailwind CSS.

Deployment: The website is deployed on GoDaddy, and you can view it here.
